► Product Introduction

Multi-function wireless pen integrates the function of remote controlling, page turning, receiving and whiteboard writing. It reappears the original handwriting effects by using advanced pressure sensing technology. In the area of education and working it was used popularly.

► Technical Data

Model	QPen
Material	ABS
USB Interface	USB-A
Default Functions (Interact with FLOW!Works Pro)	Colors change, page turnover, eraser
Default Functions (Interact with PowerPoint)	Enter Key function, browse all slides, go to previous/next slide, start/end slide show, change pen colors, erase
Working Voltage	1.5V(AAA.battery)
Standby Current	0.1mA
Working Current	<34mA
Maximum Power	50mW
RF Transnit Power	-40~8dbm
RF Received Power	-97dbm@250k/-92dbm@1M/-89dbn@2M
Communication Mode	Wireless 2.4G+USB2.0 receiver
Communication Distance	10m
RF Transmission Rate	250kbps/1Mbps/2Mbps
Working Frequency	2.40 GHz~2.48 GHz
Working Temperature	0~+40°C
Storage Temperature	-40°C+80°C
Dimensions	Pen:152mm*20mm Receiver:19mm*14.6mm*6mm
