## ► Product Introduction

The QRF300C is a simple and high efficiency audience response system. It fits perfectly for class, company meetings, or anywhere that need instant feedback. You can easily manage and visualize data by importing/exporting Excel files and converting to Power point with a button.

### QRF300C Remotes

Each student remote has an ID number, which can be set/reset by the instructor at any time. All responses are automatically collected within seconds.

### QClick Software

The QClick software suite features modules to set up classes, create exams, design templates, manage communication and generate reports. Supports all standard powerpoint features including custom animation, audio etc.
